

# ASE National Technicians Conference

The First Joint National Technicians Conference

## Summary

The 14th National Technicians Conference to be held on the 1st and 2nd of July 2010 will be delivered as a partnership between the Association for Science Education (ASE) and the National Science Learning Centre which is based in York.

ASE National Technicians Conference		NAE09182
Dates	1st July or 2nd July 2010	
Cost	£121 + VAT per day	
ENTHUSE Award	£321 per day	
<b>ENTHUSE Award</b>		
All technicians, teachers, lecturers and teaching assistants involved in science teaching in maintained schools and colleges in England, Scotland, Wales and Northern Ireland are eligible for ENTHUSE Awards. The ENTHUSE Award for this conference is £321 per day. This will cover your costs and also provide you with a small amount of money to implement your ideas once back in the classroom.		

The conference will deliver a range of lectures and optional workshops which will capitalise on the experience of the presenters and the first class facilities and resources of the National Science Learning Centre, providing an unmissable CPD and network experience.

The same programme will be covered on both days giving you the option of attending all the workshops and the lectures being delivered. Attendance can be for either one or both of the days of the conference. The state of the art National Science Learning Centre building will also host a science equipment suppliers exhibition which you will be able to visit during the conference.

## Workshops and lectures will include:

- Biotechnology
- Science clubs and open evenings
- Getting practical project and training skills for technicians
- What's new in the curriculum
- Primary science liaison and outreach
- ICT in practical work
- Laboratory design
- Demonstration lectures

Programme details will be sent out in May

The national network of Science Learning Centres, set up by the Department for Children, Schools and Families and the Wellcome Trust provides the highest quality continuing professional development for everyone involved in science education.

With nine regional Centres and a national Centre, access to innovative and inspiring courses is within reach across the UK.

[www.slcs.ac.uk](http://www.slcs.ac.uk)

The Association for Science Education (ASE) is the largest subject association in the UK for teachers, technicians and other parties interested in science education.

Working closely with the science professional bodies, industry and business, ASE provides a UK network bringing together individuals and organisations to share good ideas, tackle challenges in science teaching, develop resources and foster high quality continuing professional development.

The national network of Science Learning Centres is a joint initiative by the Department for Children, Schools and Families and the Wellcome Trust.  
[www.slcs.ac.uk](http://www.slcs.ac.uk)

The National Science Learning Centre based at the University of York, is run by the White Rose University Consortium formed of the Universities of Leeds, Sheffield, Sheffield Hallam and York.

Myscience.co Limited, Trading as the National Science Learning Centre. Company registered in England and Wales, Company Number 05081097, Registered Office: National Science Learning Centre, University of York, Heslington, York, North Yorkshire YO10 5DD.

Project ENTHUSE is a partnership supported by the Wellcome Trust, the Department for Children, Schools and Families, Astra Zeneca, Astra Zeneca Science Teaching Trust, BAE systems, BP, General Electric Foundation, GlaxoSmithKline, Rolls-Royce, Vodafone and Vodafone Group Foundation.
